

Speed Group Division:

In order to provide a maximum safety and maximum driving fun , the participants will be divided at least 3-4 different speed groups.

The classification is based on the honest self-assessment of each participant upon registration !

If a participant obviously have chosen the wrong speed group, we will provide , if possible (dep. max. Size of the group) a change in the correct speed group.

Participants who have signed up for a race are automatically divided in faster groups.

General Grouping

- **Level 1 – „beginner“:** circuit rookie – but road experience. Instructor support highly recommended
- **Level 2 – „sport“:** already track experience - however, if the respective track of the event is new, an instructor can also help if possible individually in this group
- **Level 3 – „Expert“:** the track is his home . Participants of several track days and races. Laptime hunters and " low-flying aircraft

The TNT Team reserves the right to individually adjust the block size and the number of groups to the requirements of the circuit, the total number of participants. If , for example, too large a number to be spot Level 1 students - is added a 2nd group (Level 1a) in the schedule.

The max. group size depends on the given number of motorcycles from the same can navigate the track.
